

COVID Pre-Arrival Home Test FAQ

What type of COVID test do I need to complete prior to arrival?

Antigen home test. There are several brands (examples- BinaxNOW, Flowflex, etc).

Where do I purchase the test?

You can get a home test from most chain pharmacies including but not limited to Walgreens, CVS, Target and Walmart.

How much should I expect to pay for the test?

\$5-25 **if you are on camper scholarship or you can not afford this test or need help please email camp directly or call and Belknap will assist you in getting access.

How do I complete the test at home?

There are directions in the box. Most tests take about 15 minutes.

How do I report my results to Camp Belknap?

Record camper name and date on test. Take a photo. Bring a copy of that photo or your phone with photo on it for check in day. We will check this during our check in process.

Will my camper still need to test also at check-in?

Yes. We are performing serial testing. One test you are doing at home on Friday and the second test we will complete for/with you at check-in.

What if the test is POSITIVE?

Please call camp and inform of results. You will need to isolate at home. We will work with you to get you into another camp session.
